Appln. No. 09/744,986

Attorney Docket No. T3653-8874US01

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Previously Presented) In a data processing system having a cache, a method for generating an uncached image comprising:

locating a first component that is related to the uncached image, the first component including a component tag and a component payload, the component payload including image information, and the first component being present in either the cache or a storage system;

locating a second component that is related to the uncached image in either of the cache, the storage system, or another storage system, the second component including a second component tag and a second component payload, the second component payload at least including additional image information; and

constructing, by the cache, the uncached image at least from the located first and second components.

- (Previously Presented) The method of claim 1, further comprising obtaining the located first and second components.
 - 3-4. (Cancelled)
- (Previously Presented) The method of claim 1, further comprising deriving one or more of the first and second components from an object.
- (Previously Presented) The method of claim 1, further comprising storing the constructed object in the cache.

Appln. No. 09/744,986

Attorney Docket No. T3653-8874US01

- 7. (Previously Presented) The method of claim 1, further comprising generating, by the cache, a request for the image.
- 8. (Previously Presented) The method of claim 1, wherein the image is an image file.
- 9. (Previously Presented) The method of claim 8, wherein the image file is a JPEG-2000 file.
- 10. (Previously Presented) The method of claim 1, wherein the components constitute an image file.
- 11. (Previously Presented) The method of claim 10, wherein the image file is a JPEG-2000 file.

12-46. (Cancelled)
